Listening to Young Lives at Work: COVID-19 Phone Survey

THIRD CALL

TALKING TO THE YOUNG LIVES RESPONDENTS: CONSENT PROCESS AND FURTHER ETHICAL CONSIDERATIONS

February 2021

Young Lives

Instructions for the enumerators: The "third call" refers to the third component of the telephone survey, which will take place between October and December. The instrument of the third call includes (i) an initial dialogue,(ii) a questionnaire, (iii) a farewell dialogue, and (iv) comments section. Consent is requested in the initial dialogue.

The third follow up call was designed to collect some of the time sensitive questions asked during the two previous calls to better understand whether the respondent's situation has changed in the meanwhile. The third call is planned to be 15 minutes long.

Note the following:

1. When possible, you will be asked to follow the same order of interviews in the third call, as you used in the second call. This is in order to allow for roughly the same amount of time between calls for each participant.
2. You must try to contact and invite those who were not interviewed in the second call, to participate in the third call. For Peru only, missing participants may be contacted through Facebook by the GRADE team using the "Niños del Milenio" Facebook account. For Vietnam only, only participants who were interviewed in call 2 were invited to take part in call 3.
3. You must use the dialogue guidelines included in the questionnaire in the SurveyBe software.
4. You must ask the questions that are part of the questionnaire.
5. At the same time, you should use your experience to make the conversation flow as naturally as possible. For example, if the young individual tells you something that answers one of the questions you were going to ask, do not ask the question anymore.
6. It is very important that the young individual feels like you have listened to them.

Regarding call content:

1. After the introduction, the enumerator will remind the participant of the last time they spoke during the second phone call, and that they are calling to invite them to participant in a phone survey. The enumerator will provide a brief overview of the objective of the YL telephone survey.
2. Before moving forward to ask for the respondent's consent to participate, the Enumerator must confirm they are talking to the right respondent. The Enumerator will then inform the respondent of the duration of the survey and reassure the respondent that all information they provide will be treated confidentially. Finally, the Enumerator will ask if he/she is willing to participate.
3. If the respondent consents, the Enumerator will record consent and proceed with the survey.
4. At the end of the third call the Enumerator will remind the respondent that he/she will try to contact them again in 2021, and, if the situation improves, they hope to visit them, as they had originally planned to do this year.
5. The Enumerator should mention that in return for the present that was given in gratitude for his/her time in the visits of previous years, on this occasion, that we cannot visit him/her, at the end of the survey he/she will be given a small compensation equivalent to the price of the present.
6. If the respondent refuses to participate, the Enumerator will ask for the reason for the rejection and try to address it. If the respondent still refuses, the Enumerator will thank them for their time. **See Questionnaire for more details on this aspect.*

How to respond to the young individual's concerns

During the conversation, the young individual may ask you questions about various aspects, such as how to collect the government economic support (bono universal), how to protect himself/herself from the coronavirus, how to look for work in these difficult circumstances, or how to access educational scholarships. Refer to **the consultation guide to answer questions.**

How to respond to requests for financial aid

If the index individual asks for financial aid, it is important to distinguish whether this is due to an immediate emergency or not. If it corresponds to an immediate emergency of an economic nature (health or hunger situation), take into account what is mentioned in the following section. Otherwise:

- ✓ Mention that "the project does not handle money". This is true, because the financial reward to be given corresponds to the cost of the gift that was to be given to them in this year's face-to-face visit (which was cancelled)
- ✓ Tell the individual about some of the resources in the consultation guide that might help.

[Peru and India only] It might be the case that due to the current crisis, the respondent, upon learning that there will be financial compensation later, asks for this compensation to be given now. In this case, the Enumerator should tell the respondent that they will need to ask him/her some questions to better understand the magnitude of his/her needs/problems and ask for authorization for the advance delivery of the reward and once the Enumerator has the answer he/she will call the respondent again.

The Enumerator must use the "Economic Compensation Information Sheet" to take note of the respondent's savings account or the person he or she designates (Full name of the account holder; DNI; Name of the bank; Account number; Interbank account number if the bank is not BCP). In the event that the respondent does not have a bank account, then the Bank order (Giro Bancario) option will be used to the bank that the respondent designates.

Facing an immediate emergency

Health Emergency:

It could be that at the time of calling the home, they are facing a health emergency, related to COVID-19 or otherwise. In this situation, the protocol should be:

i. Pay attention and take note of the details of the case.
ii. Provide the young individual with the information available in the consultation guide.
iii. Immediately inform the field coordinator to decide what the follow-up will be.

You may be tempted to help with specific recommendations; however, medical recommendations should be left to health experts.

Food emergency:

It could be that at the time of calling home, they are going hungry due to lack of work. In this situation, the protocol should be:

i. Pay attention and take note of the details of the case.
ii. Provide the young individual with the information available in the consultation guide.
iii. Immediately inform the field coordinator to decide what the follow-up will be.

Mental health and suicidal thoughts:

If a respondent feels desperate and suicidal, you should:

iv. Pay attention, listen and keep a quiet conversation. Take note of the details of the case.
v. Provide the young individual, carefully, with the information available in the consultation guide.
vi. Immediately inform the field coordinator to decide what the follow-up will look like.

However, if you feel that you are currently dealing with a real emergency, act as quickly as possible and ask to speak with another family member so that you can tell him/her to seek immediate support. If the respondent sounds suicidal, confidentiality becomes secondary (avoiding harm is more important).

Possible ethical cases

If the Enumerator notices something that causes him/her concern regarding the index individual/family (e.g. related to mental health, poor physical health, hunger, domestic violence) they should record it in the Comments section.

Possible ethical cases should be reported as soon as possible to the Field Coordinator and discussed in weekly feedback sessions. In turn, the Principal investigator will report these cases to the team at Oxford. It is very important that these cases are reported.

From the third phone call questionnaire:

Start the dialogue with the *YL Individual* with the following:

Dialogue 1:

Hello, (are you) / is this [YL Child´s name]? Hi, I am [first and last name of ENUMERATOR], of the Young Lives Study. The last time we talked to you over the phone was in [DATE OF CALL 2], how are you?

On that occasion we told you that we were going to contact you again to ask you few additional questions related to the Covid-19 /Coronavirus and its effects on your health, wellbeing, education, economy and work. The information we are collecting from you and the other Young Lives Children in our country will help the authorities of the government and our health system to know how to better prevent and deal with these types of emergencies, for the benefit of the entire population.

This is the last of the three calls and the shortest one. It will take approximately 15 minutes. As always, the survey will be done with your consent and on the day and time that is most convenient for you. You know that everything you tell me is confidential.

[ET and VN: As for the first and second call, each participant will be given [ET: will be given Birr 100 or an equivalent Mobile card; VN: will be given VND 50,000 or a mobile card] which is the approximate equivalent to the value (cost) of the present we used to give to you when we visited you in person.]

[PE: Information will be pre-filled to indicate if we know who received the payment after call 2.]

- Yes=01 → Proceed to Q.1.

- No=00 → SAY: During the second call we mentioned to you that as we will not be able to personally carry and deliver any presents, for this time only, we are giving to each participant [PE: S /. 50 soles, which is the approximate equivalent to the value (cost) of the present].

Q.1 SAY: [YL Child´s name], **do you agree? Will you give me your consent?**

This question aims to obtain verbal consent from the YL Individual to continue with the survey. If s/he says:
Yes=1 → skip to section 2, Current Education
No=00 → continue to Q.2

Q.2 SAY: Why don't you want to participate?

This question aims to understand the reasons as to why the YL Individual does not want to give his/her consent. This is particularly important to understand whether the reason why he/she does not want to participate can be addressed.

There are three responses to choose from the dropdown list. Do not prompt the YL Individual. Enter the response closest to the YL Individual's answer.

- (01) If s/he says s/he does not have the time to do the survey because of current commitments such as studying or having to go to work → Go to Q.3
- (02) If he/she has doubts and/or don´t trust s/he will provide good responses → Go to Q.4
- (03) If s/he refuses to participate because of a very delicate situation linked to a health, economic or other type of emergency → Go to *Farewell F3*

Q.3: Explain that you can call again the day and time that is more convenient for he/she… and also, mention again that it will be a conversation of no more than 15 minutes…

SAY: Would you like to participate? Do you give us your consent to go ahead?
This question is to re-clarify with the YL Individual whether there is a more convenient time to call him/her instead if s/he is currently busy. Please note the protocol when you call them back at the agreed time and date. Mark Yes or No based on their response.

- If s/he says Yes=01 → go to *Farewell F2* to schedule a time for the next call. When you call the YL Individual again at the scheduled time and date, start with Q.1 again to check for their consent before proceeding with the survey.
- If s/he says No=00 → take note of the reason and go to *Farewell F1*.

Q.4: Explain again the purpose of the conversation…the confidentiality of what they tell you and the importance that it has for the Government that they share their health, education, and labour market experiences during the Corona virus pandemic along with the experience of other young people of the Young Lives study

SAY: What do you think? Would you like to participate?
This question is to re-clarify the goal of the survey and the confidentiality of the responses to allay the YL Individual's concerns.

- If s/he says Yes=01 → Go to Section 2, Current education
- If s/he says No=00 → move on to *Farewell F1*

Farwell F1

SAY: [YL Child´s name] don´t worry, your decision is absolutely free and voluntary, we understand and respect it. It is necessary that you know that choosing not to participate in this survey doesn´t affect at all your link with Young Lives. The phone survey is now concluded but you are still an important part of the study until you decide. We hope to be able to visit you in person for Round 6 in 2021. In case we will not be able to do it due to the pandemic, we will get in contact with you again by phone.

Thank you very much for your attention and stay safe!

Once the *YL Individual* has given his/her consent, ask him/her the following questions in this survey. This survey aims to collect information about the *YL Individual* and his/her current education, food security and other events, mental health, employment, and trust, solidarity, collective action and cooperation.

Enumerator Statement (included at the end of the survey)

This section is for you (the enumerator) to declare that you have:

- Complied with the consent process
- Informed the Young Lives participant about everything related to the survey
- Read the consent text
- Answered all of the Young Lives participant's doubts, questions and/or queries
- Regulated your conduct in accordance with the requirements of the Young Lives Code of conduct (see section 6).

After reading the statement, and if it is true, fill in your details including your full name in capital letters, your national ID number, the full name of the YL participant and the national ID number of the YL participant where applicable.
