Data handler at the beginning of survey > Section 1: Introduction				
intro_text_sample1	**ENUMERATOR: Start the dialogue with the YLs respondent as follows:** **SAY:** Hello. Good (morning/ afternoon/ night), (are you/ is this) [name]? Hi, I am [fieldworker_name], of the Young Lives Study. The last time I/ we talked to you over the phone was in [DATECOV4], how are you? On that ocassion, we asked you a few questions about you and we told you that we would contact you again. We would like to know more about how Covid-19 is continuing to affect your health, wellbeing, education, economy and work and your household. The information we are collecting from you and the other Young Lives Children in our country will help the authorities of the government and our health system to know how to better prevent and deal with these types of emergencies, for the benefit of the entire population. The entire survey has two parts. The first part is by phone. It will take less than an hour (approximately 45 minutes), and will be done with your consent on the day and time that is most convenient for you. Once we are done with the phone survey, I will explain to you in detail what the second part consists of. It is shorter and you will be able to answer it by yourself if you give us your consent. Remember that everything you tell us is strictly confidential. As always, the survey will be done with your consent and on the day and time that is most convenient for you. You know that everything you tell me is strictly confidential. Also, as I told you the last time we talked, there is a reward in gratitude to the time that you have given us to answer all the questions.

Field	Question	Answer		
intro_reward	SAY: [name], you will remember that whenever we have visited you, at the end of the interview, in gratitude for the time that you have given us to answer all the questions, we have given you a small present, right? Since we are not going to visit you this time, similarly to what we did last year, all participants to this phone survey will be given S /. 60 soles, which is the approximate equivalent to the value (cost) of the present. This amount has increased by S./10 since the last time we spoke to you, as this call is expected to take a little longer. The delivery of the money would be made by means of a "Bank Transfer" by Banco de Crédito, Banco de la Nación or any other bank that you indicate, so that you can collect it from there. It is important that the bank account belongs to you. Or if you don't have a Bank Account, you can receive the reward from a Banco de Crédito or a Banco de la Nación Banking Agent located near where you live. Exceptionally, we could use Yape. Please let us know your preference at the end of the interview.			
CNSNT1COV5 *(required)*	**SAY:** [name], do you agree? Will you give me your consent to ask you these questions?		1	Yes
			0	No
			2	YL Child has died

Field	Question	Answer		
WHYNOPRTCOV5 *(required)*	**SAY:** Why don't you want to participate?		1	Doesn't have time/can't do it because he/she has to go to study, to work etc.
			2	He/she has doubts and/or doesn't trust regarding the information they will give
			3	He/she is going through an emergency/very delicate situation (health, economic or other type of emergency, specifying whether it is personal or related to the family)
			4	He/she is no longer interested in participating in the study. ENUMERATOR: Give this as a last resort. This might mean that they do not want to be part of call 5, or want to withdraw from the study altogether. Please take note of the reason for withdrawal and follow the next steps.
CNSNT2COV5 *(required)*	**ENUMERATOR:** Explain that you can call again on a day and time that is more convenient for him/her...and also, mention again that it will be a conversation of no more than one hour. **SAY:** Would you like to participate? 			0	No
NOCNSTNT2RSNCOV5 *(required)*	Please take note of the reason			

Field	Question	Answer		
CNSNT3COV5 *(required)*	**ENUMERATOR:** Explain again the purpose of the conversation and the confidentiality of the information they share with YL. Explain that the information and data collected will only be accessed by researchers and people in charge of the study, and that they won't be able to directly identify each participant, as the data is strictly anonymized. Additionally explain that this data is relevant to be able to communicate with them again, visit them when there is no risk to do so or send them information, etc. **SAY:** What do you think? Would you like to participate?		1	Yes
			0	No
CAUSEDTHCOV5 *(required)*	SAY: We are very sad to hear the news that [name] has passed. We are very sorry for your loss. We are very thankful that he/she was part of the YL study for more than 20 years. It was a pleasure getting to know him/her and his/her family during this time. Enumerator: If possible, in a delicate manner try to find out the YL Child's main cause of death or other information related to the YL Child's death and include details in the text box below. SAY: I am sorry again for your loss and wish you and your family all the best at this difficult time. Goodbye.			
FAREWELL1	**SAY:** [name], don't worry, your decision is absolutely free and voluntary, we understand and respect it. It is necessary that you know that choosing not to participate in this survey doesn´t affect at all your link with Young Lives. The phone survey is now concluded but we still hope we will be able to visit you in person again possibly in 2022 or 2023. In case we will not be able to do it due to the pandemic we will get in contact with you again by phone. Thank you very much for your attention and stay safe!

I am just interested in learning more about your general behaviour and how much you would be willing to pay to potentially get a larger reward **Imagine I offered you a lottery ticket that wins 155 Soles with a 50-50 chance . How much would you be willing to pay for such a ticket?** If [name] seems not to understand please say "50-50 chance means that you have an equal chance to win the lottery or to not get anything and waste what you pay for the ticket". If the YL Individual says he would not be willing to pay for this lottery ticket or is not interested in playing the lottery, code as zero. *ENUMERATOR: Please enter -77 if respondent answers NK*

intro_text_sample1	**ENUMERATOR: Start the dialogue with the YLs respondent as follows:** **SAY:** Hello. Good (morning/ afternoon/ night), (are you/ is this) [name]? Hi, I am [fieldworker_name], of the Young Lives Study. The last time I/ we talked to you over the phone was in [DATECOV4], how are you? On that ocassion, we asked you a few questions about you and we told you that we would contact you again. We would like to know more about how Covid-19 is continuing to affect your health, wellbeing, education, economy and work and your household. The information we are collecting from you and the other Young Lives Children in our country will help the authorities of the government and our health system to know how to better prevent and deal with these types of emergencies, for the benefit of the entire population. The entire survey will take less than an hour. As always, the survey will be done with your consent and on the day and time that is most convenient for you. You know that everything you tell me is strictly confidential. Also, as I told you the last time we talked, there is a reward in gratitude to the time that you have given us to answer all the questions.

intro_reward	SAY: [name], you will remember that whenever we have visited you, at the end of the interview, in gratitude for the time that you have given us to answer all the questions, we have given you a small present, right? Since we are not going to visit you this time, similarly to what we did last year, all participants to this phone survey will be given S /. 60 soles, which is the approximate equivalent to the value (cost) of the present. This amount has increased by S./10 since the last time we spoke to you, as this call is expected to take a little longer. The delivery of the money would be made by means of a "Bank Transfer" by Banco de Crédito, Banco de la Nación or any other bank that you indicate, so that you can collect it from there. It is important that the bank account belongs to you. Or if you don't have a Bank Account, you can receive the reward from a Banco de Crédito or a Banco de la Nación Banking Agent located near where you live. Exceptionally, we could use Yape. Please let us know your preference at the end of the interview.
