# SECTION 1. INTRODUCTION

**ENUMERATOR**: Start the dialogue with YL Respondent as follows:

**SAY**: Hello. Good (morning/ afternoon/ night), (are you) / is this **[YL Child´s name]** ? Hi, I am **[first and last name of ENUMERATOR]/ [VN: ENUMERATORS full name]**, of the Young Lives Study. [CAPI: Prefill present/not present in call 4] The last time I/ we talked to you over the phone was in [Call 4 Date: August-September 2021], last time we spoke to YL child how are you?

On that occasion, [Sample 1: we asked you a few questions about you and we told you that we would contact you again/ Sample 2: you were not available to answer our questions but you AGREED to be contacted again for this follow up call/Sample 3: The last time we talked to you over the phone was in [date last spoke to YL child], how are you? I am contacting you for a follow up call]. We would like to know more about how Covid-19 is continuing to affect your health, wellbeing, education, economy and work and your household. The information we are collecting from you and the other Young Lives Children in our country will help the authorities of the government and our health system to know how to better prevent and deal with these types of emergencies, for the benefit of the entire population.

[PE YC] The entire survey has two parts. The first part is by phone. It will take less than an hour (approximately 45 minutes), and will be done with your consent on the day and time that is most convenient for you. Once we are done with the phone survey, I will explain to you in detail what the second part consists of. It is shorter and you will be able to answer it by yourself if you give us your consent. Remember that everything you tell us is strictly confidential.

The entire survey takes approximately 45 minutes. As always, the survey will be done with your consent and on the day and time that is most convenient for you. You know that everything you tell me is strictly confidential.

Also, as I told you the last time we talked, there is a reward in gratitude to the time that you have given us to answer all the questions.

**SAY**: [YL Child´s name] You will remember that whenever we have visited you, at the end of the interview, in gratitude for the time that you have given us to answer all the questions, we have given you a [PE: a small present; ET: a small amount of money or transferred mobile card; IN: money purse, vanity bag, etc.; VN: a small amount of money], right?

[ET] Since we are not going to visit you and deliver any present this time, similarly to what we did last time, all participants to this phone survey will be given Birr 150 or a Mobile card which is the approximate equivalent to the value of the money. The delivery of the money would be made by means of a "Money Order" by Commercial Bank of Ethiopia or any other bank that the participant indicates, so that they can collect it from there. Or if you don't have access to a Bank we may send you the mobile card equivalent to the money. Or if you prefer to receive the money, we can send you the amount through our local guide. Please let us know your preference.

[VN] Since we are not going to visit you and deliver any present this time, similarly to what we did last time, all participants to this phone survey will be given VND 50,000 or a mobile card which is the approximate equivalent to the value of the money. The delivery of the money would be made by means of a "Bank Transfer" by Commercial Bank of Viet Nam or any other bank that the participant indicates, so that they can collect it from there. Or if you don't have access to a Bank we may send you the mobile card equivalent to the money. Please let us know your preference at the end of the interview.

[PE] Since we are not going to visit you and deliver any present this time, similarly to what we did last year, all participants to this phone survey will be given S /. 60 soles, which is the approximate equivalent to the value (cost) of the present. This amount has increased by S./10 since the last time we spoke to you, as this call is expected to take a little longer. The delivery of the money would be made by means of a "Bank Transfer" by Banco de Crédito, Banco de la Nación or any other bank that you indicate, so that you can collect it from there. It is important that the bank account belongs to you. Or if you don't have a

|---|---|---|
| Bank Account, you can receive the reward from a Banco de Crédito or a Banco de la Nación Banking Agent located near where you live. Exceptionally, we could use Yape. Please let us know your preference at the end of the interview.<br><br>[IN] Since we are not going to visit you and deliver any present this time, similarly to what we did last year, all participants to this phone survey will be given Rs. 600, which is the approximate equivalent to the value (cost) of the present. The amount will be sent through any nationalised banks by RTGS or if you don't want to give us your bank account or you don't have one, we will send the amount by "Money Order" and it will take 4 or 5 days to reach you through Post office. In both cases we will send a photo copy of the receipt. Please let us know your preference. | | |

**10.4 MAIN ACTIVITY IN MARCH 2021**

**CAPI:** This sub-section will be asked only if [YL Child] reported having worked **at least one hour in March this year (2021)** (Q.2=01 in the "Section 10.1 Employment during 2021"). If Q.2=00, skip to section 10.5

**SAY:** Now I would like to ask you about your **most important paid or unpaid work activitities during March this year (2021)**.

**ENUMERATOR**: This includes work done inside and outside the household, and EXCLUDES non-working activities (e.g. housewife, student, taking care of other household members, such as children, disabled, illed, elderly). Working as housemaid or childcare (not for relatives) should be considered as working activity. If you have a job but you couldn't work last week please still refer to the job you have to answer the following questions.

If the YL Child reports more than one activity, record the most important paid or unpaid work activity. The most important activity is the activity on which the [YL Child] spent the most time in March 2021.

### 8.2 PHYSICAL ACTIVITY

FIELDWORKER: This Section is related with the YL Child's physical activity in the domains/fields (activity at work, travelling from one place to another and recreative activities), as well as sedentary behavior.

#### 8.2.1 Activity at work

ENUMERATOR: Remember that "vigorous intensity activities" are those that require a big physical effort and cause large increases in breathing or in the heart rate; "moderate intensity activities" are those that require a moderated physical effort and cause little increases in breathing and in the heart rate.

SAY: First, think about the time you spent doing your job. Consider job as the things that you have to do, like paid or unpaid work, study/training, domestic chores, harvesting of food/crops, fishing, job seeking, etc.

| | | |
|---|---|---|
| **Q.1** | **Does your job or work activity require a very intense effort (like moving or carrying heavy loads, excavations or construction work) that cause large increases in your breathing or in your heart rate for at least 10 minutes in a row?**<br>01 = Yes<br>00 = No ► Skip to Q.4 | [ __ __ ] |
| **Q.2** | **In a typical week, for how many days do you perform vigorous intensity activities as part of your job?**<br>Enter number of days. (CAPI: Answers are valid between 1 and 7) | [ __ ] |

| | | |
|---|---|---|
| | FIELDWORKER: “A typical week” means a week in which the YL Child performs his/her usual activities. | |
| **Q.3** | **In a typical day, how much time does it take you to perform vigorous intensity activities in your job?**<br><br>Enter hours and minutes. (CAPI: Answers for hrs are valid between 1-24; for minutes between 0-59)<br><br>FIELDWORKER: Ask the participant to think about a typical day that can easily remember and in which he/she participated in vigorous intensity activities at work. Consider only those activities that were performed continuously for 10 minutes or more. | [ __ __ ]<br><br>[hrs.]<br><br>[mins] |
| **Q.4** | **Does your job require an activity of moderated intensity (like carrying light loads) that cause little increases in your breathing or in your heart rate for at least 10 minutes in a row?**<br><br>01 = Yes<br>00 = No ► Skip to Q.7 | [ __ __ ] |

### 8.2.4 Sedentary behaviour

SAY: The following question is about the time you spent sitting or lying at work, at home, when you travel from one
place to another, including the time you spent sitting in your desk, sitting with friends, travelling by car, bus, train,
reading, playing cards or watching TV, but it doesn't include the time you dedicate to sleep.

| | | |
|---|---|---|
| **Q.16** | **In a typical day, how long do you sit or lay down?**<br><br>Enter hours and minutes. # SECTION 11. TRUST, ATTITUDES AND FAMILY PLANNING

### 11.1. TRUST

**SAY**: In every community, some people get along with others and trust each other, while other people do not. Now, I would like to talk to you about trust in people in general [PE only] and your government specifially.

| | | |
|---|---|---|
| **Q.1** | **Generally speaking, would you say that most people can be trusted, or that you can't be too careful in your dealings with other people?**<br><br>01=Most people can be trusted<br>02=You can't be too careful/You cannot trust people at all<br><br>79=Refused to answer<br>88=NA | [ __ __ ] |

**CAPI ► Go to Section 14 (Data Consent)**

# HOUSEHOLD GPS (IN, PE and VN only)

ENUMERATOR: You will be inviting the YL participant to take part in our GPS online survey so we can collect more precise location information about the participant. You will provide the participant with some information about the online survey, [IN: inform the participant about the extra incentive (RS.200) we are offering if they complete the online GPS survey,] and then you will send the participant a text with the link to the online survey through text/Telegram/WhatsApp to the smartphone of their choice. Note that the online survey MUST be complete by the participant when they are at their home address and MUST be completed on a smartphone with internet access.

PE: In the Peru sample, the same participants will also be invited to complete a health online survey.

In all cases, the GPS survey [PE: and the health online survey] is completely voluntary, and the participant will need to give his/her written consent in the first few questions of the online survey.

**SAY**: As you know, the information we have been collecting in the past, and the information we collect in this call, will be used to prepare scientific reports and publications, and will be kept in secure files so that other researchers can consult it.

To better understand the context in which you live, we also collect information about your place of residence and the school you attend or attended. When we visited you in person, we also collected your precise location through GPS coordinates. This time we need your help collecting your precise location through GPS coordinates.

**IN**: In order to compensate you for the extra time spent on this, all participants who complete this online GPS survey will be given an extra Rs. 200. Once we complete this call, you will receive Rs. 600 to your account and we will confirm with you that you have received it. At this time, we will ask you whether you have completed the online survey and cross-check this with the data we have. If you have completed the online GPS survey, we will transfer the extra Rs. 200 by same means as the Rs. 600 for participating in the phone survey. Again, please let us know your preference for payment at the end of the interview.

**ENUMERATOR**: Please not that everyone who completes part, or all, of the GPS survey will receive the extra incentive. For example, some participants might attempt to send their GPS location but fail to do so because of privacy settings. They would still have invested time (and data) into this and deserve compensation. No need to mention this to the respondent.

**PE**: **ENUMERATOR**: If the participant wants to participate in the online GPS survey but is unable to do so because he/she has to incur an extra cost (for example, buying data), exceptionally we can approve an extra payment of S./ 10 soles in that case (for a total of S./ 70).

**SAY**: Please bear in mind that:
• In no case this will reveal your identity.
• All the information that you provide us will be treated strictly confidential.
• We will not reveal your name or your child's name to anyone other than a member of the study team.
• We will also not reveal the name of the town where you live or any other information that would allow someone to identify your identity.
• Your anonymity is guaranteed and there is no risk to you associated with the use of the information collected and there is no risk from participating in this study.
**The information we are collecting through this short online survey are exactly the same as the information collected in the past.**

| | | |
|---|---|---|
| **Q.44a** | [IN only] In order to take part in this online survey, you must be able to access a smartphone with internet access whilst at your home address. From the information you previously gave me, it does not seem that you or anyone in your household has a smartphone with internet access. Do you have a friend or neighbour etc. who would let you use their smartphone with internet access from your household to complete this online survey?<br>01=Yes ► Go to Q53<br>00=No ► Go to **Thank you 1.** | [ _ _ ] |

SAY: A few more instructions for you:
1) You will receive a text message that I will send you through text/Telegram/WhatsApp. The message will contain a link in it to an online survey.
2) You will need to click on the link when you are at home and have access to internet (through your data plan or Wi-Fi). You can use your smartphone or borrow a smartphone from a family member or friend to complete the survey, but it is very important that you do it only when you are in your house, at the place where you live.
3) If you use your smartphone data to access the internet, please go just outside your house (where the signal is better) and complete the survey. This allows the GPS information to be more accurate than if you complete it inside your house where the signal might be weak. If you use Wi-Fi, please complete the survey inside the house (as close as possible to your router).
4) Once you have completed the online survey at home, please send me a screenshot showing that you have completed the survey. If you are not able to complete the survey for some reason, please send me a screenshot of where you were able to get to in the survey.

ENUMERATOR (confirming the phone for sending the link): When the participant has confirmed they have a smartphone(s) with internet access, please confirm with the participant which smartphone they would like you to send the link to. CAPI will show you a list of numbers and names of owners of all smartphones with internet access for the participant. Note that you can send the link to a smartphone with internet access not in this list if it is more convenient for the participant (e.g., a smartphone which belongs to the participant's friend).

ENUMERATOR (Details on sending the link): Before sending the link to the participant through text/Telegram/WhatsApp, please note what that participant's CASEID is. The CAPI will show you the relevant link for the YL participant, but you cannot copy this link directly from CAPI. Instead, go to the excel sheet/word document that you have been provided, and locate the YL participant's CASEID. Copy the link next to the YL participant's CASEID. Each link next to the YL participant's CASEID is unique to that individual. Make sure that the link that you have copied is the same as the link shown to you on the CAPI. Send the participant this link through text/Telegram/WhatsApp.

# INTERACTIVE SURVEY (PERU YC ONLY)

**ENUMERATOR**: Once the Phone Survey has been completed, you will be inviting the YL participant of the Younger Cohort to take part in the interactive nutritional survey only if they have access to a digital device and internet.

| | |
|---|---|
| **Q.55** | **[PE YC ONLY] SAY**: [YL Child´s name] As I told you at the beginning, this survey has two parts. The first one we have just finished, and the second part is an interactive online survey that you have to answer by your own, using the internet, with your Cell Phone, Tablet or Computer. This interactive survey has simple questions about your personal body perception, your diet, tastes and preferences and will take you to answer at most 30 minutes. Remember that, as always, all your answers are confidential. If you agree to take part of the survey I will give you the instructions so that you can enter this interactive survey.<br>Tell me [YL Child´s name] Do you agree to take part of this online survey?<br><br>Yes ► SAY: Thank you. In a few days' time, I will send you a second text message with the link to the online health survey. You may complete the online survey at any time in the next 2 weeks, but we would appreciate if you can do it as soon as you can.<br>ENUMERATOR: Continue to provide the interactive survey entry instructions<br>No ► Say: Don't worry, we understand and respect your decision. Can you tell us why you don't want to take part of our interactive survey?<br>Write down the reason why the YL Child has rejected the survey:<br>_____ |

| [CAPI: only enable if participant gives consent to participate in the Interactive survey]<br>Thank you! I will now proceed with some instructions for the interactive survey.<br><br>-To enter the interactive survey I will send you a link, username and password by WhatsApp/ text and/ or email (if apply). As soon as you receive the message let me know.<br>-Once you enter the link, the website will ask for your username and password. You must enter them, and then you will see a question confirming your participation. As soon as you accept it, you will automatically be able to answer the survey questions. The survey has 5 sections and we ask that you read each question carefully and make sure you answer all the questions in each section.<br>-As soon as you finish answering the entire online survey you will get a message that says "the survey was completed satisfactorily". As soon as you receive this message you must communicate with me, by Phone or WhatsApp, and send me a screenshot.<br><br>Please note that participants USUARIO is: ${ } and PASSWORD is: ${ }<br>Send the participant the link https://encuesta.grupogalenosocupacionales.com/ |

|---|---|
| **Q.55b** | **[PE YC ONLY] SAY**: As I told you at the beginning, this survey has two parts. The first one we have just finished, and the second part is an interactive online survey that you have to answer by your own, using the internet, but according to our conversation, it is currently not possible to you to access the internet, so you could not answer it. Do not worry, this does not affect your participation in the Young Lives Study at all. I will do the corresponding procedure so that you receive, as soon as possible, your present of gratitude that, as I told you at the beginning. |

**THANK YOU 2**

**SAY: Thanks a lot for confirming your contact information. I will send you the link to the online GPS survey shortly. The very final step for us is to check with you that you are happy about how the information we collected are going to be used. I promise, this is the last thing!**

**CAPI ► Go to Section 14 (Data Consent)**

# SECTION 14. DATA MATCHING: CONSENT

**SAY**: As you know, the information we have been collecting and the information we collect on this visit will be used to elaborate reports based on all the interviews we are doing, that allows us to inform government authorities about the current reality for young people like you. We want to identify strategies that contribute to improving living conditions and opportunities for the young people in [country] and around the world. In addition, the information will be kept in a file so that other researchers can consult it.

It might be useful for us to match the data we collected by interviewing you and the other Young Lives respondent with other available dataset.

**SAY**: Please bear in mind that: In no case this will reveal your identity. All the information that you provide us will be treated strictly confidential. At the moment, we are only planning to use the name of your place of residency to match with information about climate (rainfall, temperature); information about the labour market; and, information about the school you attend/attended or your child's attend/attended."

[CAPI Enable for VN and PE] **ENUMERATOR**: As I mentioned at the start of the interview, we would like to give you a small present for taking the time to speak to us. We would like to give you [PE: S /. 60 soles] [VN: VND 50,000 or a mobile card which is the approximate equivalent to the

value of the money]

[VN] The delivery of the money can be made by means of a "Bank Transfer" by Commercial Bank of Viet Nam or any other bank that you indicate, so that you can collect it from there. Or if you don't have access to a bank we can send you the mobile card equivalent to the money. Please let us know your preference.

[PE] The delivery of the money can be made by means of a "Bank Transfer" by Banco de Crédito, Banco de la Nación or any other bank that you indicate, so that you can collect it from there. It is important that the bank account belongs to you. Or if you don't have a Bank Account, you can receive the reward from a Banco de Crédito or a Banco de la Nación Banking Agent located near where you live. Exceptionally, we could use Yape. Please let us know your preference.

Question Q.3 in Section 11.2 is an excerpt and adaption of an original work by:
Galambos, N. L., Petersen, A. C., Richards, M., & Gitelson, I. B. (1985). The Attitudes Toward Women Scale for Adolescents (AWSA): A study of reliability and validity. *Sex Roles*, 13(5-6), 343-356. doi:10.1007/bf00288090

**Section 12: SWB and mental health**
Questions Q.2 and Q.3 are in section 12 are an adaption of:
Cantril, H. (1965). The pattern of human concerns: New Brunswick, N. J.: Rutgers University Press, [1965]. The number of steps was reduced from 11 (0-10) to 9 (1-9).

Questions Q.4 and Q.5 in section 12 are based on:
Spitzer, R. L., Kroenke, K., Williams, J. B., & Lowe, B. (2006). A brief measure for assessing generalized anxiety disorder: the GAD-7. *Arch Intern Med*, 166(10), 1092-1097. doi:10.1001/archinte.166.10.1092

Questions Q.6 and Q.7 in section 12 are based on:
Kroenke, K., Strine, T. W., Spitzer, R. L., Williams, J. B., Berry, J. T., & Mokdad, A. H. (2009). The PHQ-8 as a measure of current depression in the general population. *J Affect Disord*, 114(1-3), 163-173. doi:10.1016/j.jad.2008.06.026

Note: *The GAD-7 and the PHQ-8 were slightly adapted for use in a phone survey. First, we asked participants whether they were alone in the room and if not, whether they could go to another room and/or make sure their phone speaker was off. Second, for each item in GAD-7 and PHQ-8 we asked whether the symptom had been observed (No, not at all / Yes, even if a little bit), and if so, how often it occurred. Third, as some participants are mentally disabled and the survey is administered to a caregiver, 88=Not Applicable was introduced as a possible response.*
