0.2 CONSENT FORM TO BE READ AT THE BEGINNING OF THE PHONE SURVEY

ENUMERATOR: this consent form should be read to all the respondents who agreed to be part of the phone survey. Please confirm with them that they are still happy to proceed with the interview and read the paragraph below.

ENUMERATOR: Start the dialogue with participant as follows:

SAY: Hello, is this [YL Child´s name]? Hi, I am [first and last name of ENUMERATOR], of the Young Lives Study. The last time we talked to you over the phone was approximately a month ago in Yekatit, how are you?

On that occasion we told you that we were going to contact you again after you agreed to participate in a phone survey with questions related to your health, wellbeing, education, economy and work, and your household. We are very happy that you agreed to talk to us today, because the information we are collecting from you and the other Young Lives Children will help to identify strategies that contribute to improving the living conditions of young people like you in Ethiopia and other similar countries, and make the reality of their living situation known to others.

The entire survey takes approximately one hour. As always, everything you tell me is confidential.

Finally, as I told you the last time we talked, there is a reward in gratitude to the time that you have given us to answer all the questions. Each participant will be given Birr 500 or an equivalent mobile card.

[YL Child´s name], are you still happy to answer our questions, can we proceed?

ENUMERATOR: Please record if the respondent confirms his/her answers from the consent form that was read to him/her during the last phone call.

ALTRUISM (only enable for ET)

SAY: I am now going to ask you a scenario about winning the lottery. The question is about money, so although you are not actually winning real money, I would like you to take it seriously, and answer as if you were winning real money.

Imagine the following situation: you bought a lottery ticket and you have just won. The amount you won is 3,000 birr. This money is yours and you can do with it what you like.

However, when you go to pick up your lottery winnings, the lottery company tells you of three charities. One charity says that it helps all people in Ethiopia, including people from the kebele where you were born, but also all other kebeles in the country. The second charity only helps people in the kebele where you were born specifically, and the third charity only helps people in another kebele outside the region where you were born. The lottery company tells you that, if you want, you can donate some of your lottery earnings to any or all of these charities. However, you do not have to do so - it is perfectly okay if you choose to keep all of your winnings for yourself.

FIELDWORKER: Make sure that the sum of the amounts donated in Q.6, Q.7 and Q.8 is not more than the total lottery winnings of 3,000 birr
