Introduction

The 2016-2017 Ethiopia School Survey Wave 1 Data was collected between October to November 2016. The instruments used for data collection are;

- Students Questionnaires
- Teacher Questionnaire
- Head teacher Questionnaire
- School facilities Questionnaire
- Section roster

This data dictionary has been created to accompany the data to be archived and provide clarifications were necessary.

The Ethiopia Wave 1.dta contains all the data collected at the beginning of the school year (Wave 1). The data have been merged into one data file at the student level. The following tables give a brief description of the variable names and variable labels as well as the codes for each variable.

Table 1: Identifiers

The variables in table 1 have been used to uniquely identify students, school, section, region where the school is located as well as the sites in each region.

VARIABLE	VARIABLE LABEL
UNIQUEID	ID Student unique id
SCHLID	SC School id
SECTIONID	SE Section id
STUDENTID	ST Student id
URBAN	Locality Codes are: 0 = Rural, 1 = Urban.
REGION	Region. Codes are: 1 = Addis 2 = Amhara 3 = Oromia 4 = SNNP 5 = Tigray 6 = Somali 7 = Afar
SITE	YL Site
REGION_SITE	YL site name

Table 2a: Student Questionnaire

The variables in table 2a represent data collected at the student level. The student questionnaire collected information about student home background and individual characteristics for each student in the survey.

VARIABLE	VARIABLE LABEL
STDAGE	ST B1. What age are you? (Write number in box)

Appendix: Linking Maths and English Test Items between Waves and across Ethiopia, India and Vietnam.

The Young Lives 2016-2017 school survey administered test items from a universal bank of items pulled from different sources[1], for both English and maths. Some items were common between the two waves of the surveys in one country while others were common across the three countries.

This document provides tables to enable data users link the common items across countries and (or) between waves in one country.

Universal item number refers to the unique identification number for each item in the item bank. W1 (country) item number is the unique identification number for the items as administered in the country at wave 1 (beginning of the school year). W2 (country) is the unique identification number for the items as administered in the country at wave 2 (end of the school year).

Table A1: Maths items administered in Ethiopia, India and Vietnam in W1 and W2.
